### New Princess Ship Reflects Fun and Style of Caribbean

*Making her debut this month, the Caribbean Princess is a ship tailored to her market, and we're not just talking about her name.*

**P**RINCESS' FIRST SHIP SOLELY DEDICATED TO CARIBBEAN CRUISING WILL OFFER PASSENGERS A MEDLEY OF SPECIAL CARIBBEAN-THEMED DINING, entertainment and activity options. The Caribbean Princess' destination-specific innovations include an elegant Caribbean dining option with rotating local specialties, festive deck parties, a special stage show and several dining innovations created to take full advantage of passengers' private balconies.

The ship has been designed as a casual and fun atmosphere that incorporates the tastes, sights and sounds of the destination. From rum punch and jerk chicken to Calypso music and vibrant décor, Princess wanted to pull out all the stops to give passengers a true Caribbean experience.

In particular, the dining venues and menus have been customized to match the cuisine and style of the Caribbean. At Café Caribe, for instance, passengers may savor the flavors of the Caribbean in a casual setting, reminiscent of an island hot spot. Offering a blend of buffet and made-to-order service, the Café will have a changing menu featuring local specialties like Caribbean Rock Lobster and Guiana Pepperpots and Curries. This innovative dining venue will also feature live music nightly.

The Caribbean Princess will have more than 900 cabins with balconies, and Princess wants to take full advantage of that special luxury with dinner and breakfast served on their balconies.

Onboard entertainment is also designed to take full advantage of region's pleasant climate and its style of partying. The event could be something as simple as the new Movies Under The Stars program, a presentation of a popular movie on one of the outdoor decks, with drink and food service available.

But the Caribbean Princess will also host Island Nights, starting with a special top deck sailaway party featuring local entertainers, prizes, food and plenty of festive cocktails and mocktails. To continue the fun, Princess will combine the tradition of Island Night with the concept of island hopping, offering "Caribbean Carnivale" celebrations at both the Terrace and Neptune's Reef pools simultaneously at the midpoint of each sailing.

More formally, a new stage show, the Caribbean Caliente, has been designed specially for the Caribbean Princess. Pulsing with music and dance from Caribbean-area destinations the show will feature a number of contemporary Latin artists such as Gloria Estefan, Tito Puente and others.

For a taste of the Caribbean that you won't soon forget, call us to reserve your cabin aboard the Caribbean Princess.
